Dear Applicant:

Welcome and thank you for your interest in the Village of Corinth. The Planning Board was established in 1975 by the Board of Trustees of the Village of Corinth in order to review site plans and subdivisions of land. We are committed to encouraging proper growth and development within the Village of Corinth.

Currently, there are two primary areas that receive oversight by the Planning Board. These are site plan review and subdivisions of land. Should a project require review or approval by the Planning Board the process may take approximately one to three months and will likely require a public hearing. Depending on the complexity of an application, this time frame may vary according to applicable law.

Attached is an application packet, including a Short Environmental Assessment Form. Bring the original and seven (7) copies of the application materials to the Village Clerk at least seven (7) days prior to a regularly scheduled Planning Board meeting. The Planning Board normally meets as required in the Village Hall, 244 Main Street, Corinth, NY 12822. Please check with the Village Clerk for any changes. The Board will consider your application at the next meeting following receipt of it. When your application is considered complete, you will be asked to submit the required fee before a public hearing can be scheduled.

The fees are as follows:

Site Plan Review - \$100.00
Subdivision - \$ 10.00 plus \$5.00 per proposed lot

If you have questions or need assistance, please feel free to contact any of the members of the Planning Board or our attorney. Copies of the Village Code are located online at www.villageofcorinthny.com, at the Village Hall, and the Corinth Free Library. We look forward to working with you.

Sincerely,
Village of Corinth Planning Board

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
