Subject: Palmer Ave Project - Paving

The surface asphalt that was applied over the last few days, was applied unsatisfactory and The Village is not accepting the quality of this application. There are several high and low areas on the street.

The Engineering Company who was hired to manage the Palmer Avenue Project, the Contractor and Sub- Contractor, were all officially notified that this work was unacceptable, and needs to be rectified, quickly.

The Project Manager/ Engineer agreed, and his Team is working to develop a Plan to rectify the issue. The plan will be milling the top asphalt off, and re-paving the Street.

This will be done at no additional cost to the tax payers.

We apologize for the inconvenience. We all want the Street to be paved correctly.

Stay tuned for more updates.
